

Date: _____

Outline Map of United States Biomes

Directions: Choose a color for each biome number on the map, and then color in each biome. Remember, the biome lines will not be the same as the lines for the states (sometimes the lines will cross).

Look for evidence that children followed directions, selected a unique color for each biome, and colored the legend and the map with those colors.

- (1) Chaparral
- (2) Desert
- (3) Grasslands - Prairie/Plains
- (4) Grasslands - Savanna
- (5) Rain Forest
- (6) Temperate Deciduous Forest
- (7) Temperate Coniferous Forest
